SHOHRUZ ZUBAIDOV

From a young age, I had an immense interest in Math and Computer Science. Currently, I am doing my Bachelor's degree in faculty Computer Science at International Black Sea University. My strong suits are Python development and Web Development in WordPress Framework. Over the next few years, I intend to develop as an intern Web Developer. For that, I have learned a bit more about modern JavaScript, Django frontend technologies, and Automation in Python.

Education and Qualifications

Bachelors in Computer Science   Sep 2019 - Jul 2023
International Black Sea University, Georgia, Tbilisi

Work experience

Math Tutor   Sep 2018 - Jul 2021
Online Tutor for Olympiad Students, Tajikistan, Dushanbe

Guided International high school students to prepare for Olympiads, examinations, and college-level coursework by cultivating a deeper understanding of higher-level math concepts both online and offline.

IT Support (Volunteer)   Sep 2020 - Jun 2021
Shaw Academy, Georgia, Tbilisi

Shaw Academy was a global destination for teaching and learning online as Udemy, Coursera, etc. And my position mainly supported students in a proper understanding of Python Programming Language if they faced any difficulty during the class. Answered user inquiries regarding computer software or hardware operations to resolve problems.

WordPress Web Developer   Oct 2021 - Apr 2022
Cyber Secure Central, Georgia, Tbilisi

We were an awesome team that provided companies with wonderful and spectacular static and dynamic eCommerce websites and always carried out for our clients with high compatibility.

Books

Books that I'm covering for improving my Programming Skills:

[+] *Black Hat Python 2nd Edition* by **Justin Seitz**
[+] *Python Crash Course 2nd Edition* by **Eric Matthes**
[+] *Automate the Boring Stuff with Python* by **Al Sweigart**
[+] *Linux Basics For Aspiring H****rs* by **OccupyTheWeb**
